## The Goal of Excellence

Otago Girls' High School has a robust and vibrant academic programme. Our programmes of learning encourage and support students to become confident, connected, actively involved, life-long learners. A key tool in achieving this is the provision of e-Learning opportunities made possible through our ultra-fast broadband connection and wireless computer access, that allow the students to bring and use their own devices at school.

The curriculum offered at Otago Girls' High School enables every girl to develop self-confidence; explore a range of learning, leisure and sports skills; extend special interests and talents; participate in social action; and make appropriate choices based on her abilities and interests while pursuing the goal of excellence. Over 30 subjects are offered at NCEA levels 1, 2 and 3.

We prepare our students for NCEA qualifications at all levels and we are proud of our consistently excellent results, which each year include numerous scholarships of various types. Students receive excellent preparation for international examinations and entry into universities in New Zealand and overseas.
